

CHS YieldPoint® Data Management

Our goal is to make precision agriculture as stress-free as possible. Farm data grows exponentially with every season, making it critical for you to have a dependable data management system. CHS YieldPoint® provides dependable recordkeeping and planning services to help you manage your farm's data and leverage it to make wise long-term decisions.

Expert data management and production analysis helps you get more value per acre, and is crucial in ordering site-specific applications that enhance yields, manage costs and maximize profits. Together, we'll utilize all the data and expertise available to help you continuously improve your operation.

CHS YieldPoint® specialists can help you succeed with:

- Assembling, organizing and storing records
- Consolidating farm data into an accurate and concise format
- Tracking information from year-to-year for you and your business partners
- Evaluating previous year's technology, product and crop performance
- Establishing performance expectations and setting future year plans
- Making sustainability recommendations

Discover the CHS YieldPoint® solution for success. We will help you increase profit potential with leading precision ag offerings through local experts with global connections.

CHS YieldPoint® specialists help you succeed with:

- CHS YieldPoint Sampling – Grid and zone sampling
- CHS YieldPoint Prescriptions – Planting and fertilizer prescriptions
- CHS YieldPoint Tissue Sampling – Crop tissue sampling
- CHS YieldPoint VRT Spreading – Variable rate spreading of single or double products
- CHS YieldPoint Mapping – Planter and harvest mapping
- CHS YieldPoint Water Management – Integrated system approach to maximize water use
- CHS YieldPoint Data Management – From consolidating records to evaluating performance and setting plans

Gain these benefits for your operation:

- In-depth reports on grower, farm, field or operational failures and successes
- Access to pooled data (providing a larger, more accurate database)
- Seed selection advice gathered from multiple experiences with hybrids in your region
- Industry-leading local data on new products gathered through our YieldPoint field trials process
- Ability to manage risk with more accurate information
- Prescriptions based on local data
- Relationships with local advisors
